LAST TIME OUT

The Checkers earned their second straight shutout win over the Wolf Pack, 4-0 on Saturday night. Justin Sourdif lead the way offensively for the Checkers with two goals, while Ken Appleby earned his AHL-leading fifth shutout of the season by stopping all 18 shots he saw. After a scoreless first period, Wilmer Skoog started the scoring midway through the second with his seventh tally of the year. Assisting on Skoog's goal was Trevor Carrick, his team-leading 28th of the year, and Jesse Puljujarvi who registered a point in his Checkers debut. Less than four minutes later, Sourdif got his first of the game with a far-post snipe that beat Hartford netminder Louis Domingue. Sourdif would get his second goal of the game in the third period to make it 3-0. Later in the frame, while down a man, Rasmus Asplund hit the empty net for his 15th goal of the season and the team's 13th shorthanded tally.

SOURDIF SOARING

Third-year Checker Justin Sourdif has been the model of consistency for the Checkers offensively over the last two months. After his two-goal performance on Saturday, the one-time third-round draft pick of the Florida Panthers now has 16 points in his last 16 games played. In addition, his two-goal performance on Saturday was his second multi-goal game in his last five games.

AWESOME APPLEBY

Ken Appleby's 18-save shutout on Saturday was his fifth blanking of the season, good enough for best in the AHL. It's also the most he's had in a single season throughout his 10-year career and ranks second all-time among Checkers goalies in a season. The veteran netminder continues his renaissance season, having won 11 games in his 18 games played.

HOLDING HARTFORD

After a tough start to the season series, the Checkers have righted the ship and shutout the Wolf Pack in back-to-back games. Last week's 3-0 win in Connecticut was the first victory of the season for the Checkers over Hartford. After their win on Saturday, the season series sits with Charlotte owning a record of 2-2-1-1 to Hartford's 4-2-0-0.
